

THE DRL GROUP RECOGNIZED AS BEST MUNICIPAL BOND MONEY MANAGEMENT FIRM IN THE UNITED STATES

July 17, 2025

For more than three decades, The DRL Group has stood as a trusted partner to investors pursuing high-quality municipal bonds and tax-free income solutions. With a client base that spans the United States, the firm has earned its reputation through deep market insight, a client-focused philosophy, and an unwavering commitment to simplifying the complexities of fixed-income investing.

Founded by David and Darrin Loesch, The DRL Group pairs decades of industry experience with proprietary technology, offering clients uncommon access to municipal bonds tailored to their unique objectives. DRL's advanced research and screening platform evaluates thousands of municipal offerings each day, enabling the team to identify tax-free opportunities often beyond the reach of individual investors. The result: portfolios built with precision and aligned to long-term financial goals.

Central to The DRL Group's success is a powerful guiding principle: every investor deserves thoughtful, personalized attention. From the initial consultation through years of portfolio management, their seasoned team fosters enduring relationships built on trust, transparency, and a shared focus on financial security. Crucially, every client interaction is managed by a professional—not an automated system—underscoring the firm's dedication to responsive, relationship-driven service.

Drawing on decades of insight into how political, economic, and market forces shape fixed-income portfolios, The DRL Group helps investors avoid the volatility often associated with equities while earning tax-advantaged returns.

This unwavering focus on quality, access, and service excellence has earned The DRL Group recognition as the Best Municipal Bond Money Management Firm in the United States by Global 100 for 2025.
